<https://rarible.com/token/polygon/0x4c65766df3ed923953943fd75e22f807343e0cfd:26>
- Angular certification from Simplilearn

PROJECTS

1. MyPhysician360 - Healthcare and Online Consultation | Exafluence Jul 2024 – Present

- Contributed as a Frontend Developer to a comprehensive web application for healthcare services, enabling online consultations and medical advice. The platform allows patients to book virtual appointments, consult with licensed physicians, and access personalized health recommendations. Key features include a secure patient portal, real-time video consultations, appointment scheduling, and integrated medical records management.
- **Tools & Technologies:** Angular.js, Swagger, Visual Studio Code.

2. Pricing Engine | Exafluence Dec 2023 – Jun 2024

- Omni Clouds, a leading cloud services provider, offers a range of products and services to its clients. To streamline the pricing process within their Zoho CRM system, a custom JavaScript functionality needs to be developed. This functionality will automatically calculate the pricing based on certain parameters and display the total cost for the selected Omni Clouds products.
- **Tools & Technologies:** React.js, Java, MongoDB, REST API, Visual Studio Code.

3. SCMXPertLite | Exafluence Oct 2023 – Nov 2023

- Developed the order fulfillment process, ensuring precision and timeliness in shipment distribution. Enhanced scalability and data management through MongoDB integration. Ensured system reliability with rigorous API testing using Postman. Streamlined deployment for improved application delivery.
- **Tools & Technologies:** Web technologies, Java, REST API, SpringBoot, Visual Studio Code.

4. Onymos | Exafluence Mar 2023 – Sep 2023

- Managing photos, images and videos in today's mobile apps is time-consuming and thankless. Media is the toolkit to make it easy. The simplest, fastest way to compress, store and retrieve photos and videos.
- **Tools & Technologies:** Java, Native android, SpringBoot, Visual Studio Code.

5. E-commerce application | Smerkato Mar 2021 - Feb 2022

- Useful for suppliers who are supplying groceries to customers who ordered from Smerkato e-commerce.
- By using these e-commerce application, end-users can easily avail services from the website.
- **Tools & Technologies:** Java, angular, MySQL, Visual Studio Code.
