PROJECTS

ATS(Application tracking system)
05/2024 – 01/2025
An Applicant Tracking System (ATS) streamlines the recruitment process by automating many stages of hiring, from posting job ads to screening candidates and managing interview workflows. Key outcomes include improved efficiency, as it reduces time spent on manual tasks, and better candidate tracking, allowing recruiters to organize applications and identify top talent more easily.

MTI(MAKONIS TRADING INTELLIGENCE)
05/2024 – 01/2025
Contributed to the development of a trading application as part of the MTI project, focusing on creating a user-friendly platform that streamlines trading activities. Designed and implemented features such as real-time market updates, portfolio management tools, and secure transaction mechanisms, ensuring data integrity and user confidence. Worked closely with cross-functional teams to deliver a scalable, high-performance application optimized for diverse user needs.

Grameen Chatbot
04/2023 – 07/2023
In this project, to provide a convenient accessibility for agriculture information and expert advice for farmers, villagers, individuals in any language through the mobile application. This app is designed for the government where the application is helpful to provide expert solutions to farmers by the chatbot and expert team appointed by the government. We will be using a database tables posted on google cloud services which stores the information about all the queries like agriculture, fishering, Hori culture, forestry. Grameen chatbot uses HTML, CSS, JavaScript technologies for building the Application

Chatbot System for Universities
03/2021 – 09/2021
The college inquiry chatbots will built using artificial algorithms that analyze user's queries and understand user's message. the response principle is matching the input sentence from the user. the user can ask the question any college related activities through the chatbot without physically available to the college for inquiry.

INTERESTS

Playing Games, Travelling, A Lot interest in participating at new activities, Reading books
